SUMMARY

Computer Science undergraduate with strong foundations in DSA, OOPs, OS, DBMS, and Computer Networks. Experienced in building full-stack web applications using the MERN stack, designing secure REST APIs, implementing JWT-based authentication, and developing scalable backend systems. Hands-on experience with API validation, debugging, and automated testing frameworks, with a strong interest in software engineering, quality assurance, and building reliable, production-ready applications.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Testing & API Tools: Playwright, Jest, Supertest, Newman, Postman, API Testing, End-to-End Testing

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Spring Boot

Frontend: React, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, Oracle SQL

DevOps & Deployment: Docker, GitHub Actions, Vercel, Render

Developer Tools: Git, GitHub, VS Code

Machine Learning: Scikit-learn, NumPy, Pandas, Seaborn, Flask, Joblib

INTERNSHIP EXPERIENCE

Jyesta

Dec 2025 – Jan 2026

Mentor-guided Full Stack Web Development Intern

- Designed and implemented RESTful APIs using Node.js and Express.js, developing MongoDB schemas and CRUD operations to support scalable and maintainable backend services.
- Implemented secure JWT-based authentication and authorization across frontend and backend, validating API endpoints and request/response workflows using Postman.
- Debugged cross-stack integration issues, leveraged Git/GitHub for version control, and followed modular development practices to improve code quality and maintainability.
- Developed reusable and responsive React.js components, translating functional requirements into modular user interfaces while collaborating within a structured full-stack development workflow.

PROJECTS

AgriFleet – Role-Based Fleet Management Platform (React, Redux Toolkit, Node.js, Express.js, MongoDB) [🔗 GitHub Repository](#) / [🌐 Live Demo](#)

- Engineered a full-stack, role-based fleet management platform with dedicated Admin, Driver, and Client portals, implementing secure JWT-based authentication, role-based access control (RBAC), and protected REST API endpoints.
- Designed and developed modular REST APIs for vehicle booking, driver assignment, fleet management, and booking history using Express.js, supported by an optimized MongoDB schema for data management.
- Implemented Redux Toolkit for centralized state management, optimizing API interactions and ensuring consistent data synchronization across dashboards and booking workflows.
- Deployed the production-ready application using Vercel (frontend) and Render (backend), delivering a responsive React and Tailwind CSS interface with secure backend integration across desktop and mobile.
- Working with an independent automation testing framework using Playwright, Jest, Supertest, Newman, and GitHub Actions to automate UI, API, and integration testing for the AgriFleet application.

CarDekho Used Car Price Prediction – Machine Learning Web Application (Python, Scikit-learn, Flask) [🔗 GitHub Repository](#) / [🌐 Live Demo](#)

- Built a modular, end-to-end ML pipeline on 15,000+ CarDekho listings, structuring data preprocessing, feature engineering, model training, and evaluation into reusable components across six regression models.
- Optimized a Random Forest model achieving $R^2=0.86$ with MAE of Rs. 1.06L, identifying vehicle age and maximum power as key pricing factors through feature-importance analysis.
- Built and deployed a Flask web application on **Render** for real-time price prediction, integrating the modular preprocessing, training, and inference components into a production backend.

EDUCATION

2024 – Present	B.E. Computer Science and Engineering , SSN College of Engineering, Kancheepuram CGPA: 8.063 Academic Status: No Active Backlogs
2022 – 2023	Higher Secondary Certificate (HSC) , Rajavignesh Hr Sec School, Melamathur Percentage: 96.67%
2020 – 2021	Secondary School Leaving Certificate (SSLC) , Rajavignesh Hr Sec School, Melamathur All Pass (Half-yearly: 98.0%)
